

# Playing with: Flipper Gem

Feature Flagging with Ruby

# about

def about

- Rails Software Engineer  
- @ghosteathuman

end

# journey

- Introduction
- Concepts
- Quick look at example code

# flipper gem

- Feature Flagging for Ruby
  - Turning features on & off
- Enable or disable features for everyone, specific actors, groups of actors, a percentage of actors or a percentage of time
- Configure feature flags from console or web UI

# installation

- ``gem install flipper`` || add “gem ‘flipper’” to Gemfile
- Adapter (to datastore that Flipper will use):
  - Active Record
  - Sequel
  - Redis
  - Mongo
  - And many more...

# gates

- <https://github.com/jnunemaker/flipper/blob/master/docs/Gates.md>

code

# others

- Can have a central Flipper API server
